Babymoov have won 2 awards for its responsible innovation strategy!

#### 2014:

«Entrepreneur of the year» prize awarded by Ernst & Young

#### 2009 & 2018:

The «Innovative Enterprise"» Seal of Excellence awarded by BPI (OSEO)

#### **OUR SOCIAL RESPONSIBILITY IN ACTION!**

#### **ENVIRONMENTAL RESPONSIBILITY**

Determined to play its part in encouraging mindful consumption, the Babymoov Group has, for 20 years, offered a LIFETIME GUARANTEE with its products. They are repairable and recyclable, their service life is, therefore, longer and their environmental impact is lower. But our commitment to health and the environment goes even further across many ranges: Oeko-Tex®-certified fabrics, low wave emissions, FSC-labelled packaging...

And that's only the beginning!

Our Group has recently entered into a partnership with Reforest'Action, an organisation which works for the cause of reforestation throughout the world. In early 2020, Babymoov will have the honour of planting 2,000 trees to replenish forests in Dormans (Marne, France), therefore generating 12,000 years-worth of oxygen for the generations to come!

#### **SOCIAL RESPONSIBILITY**

Babymoov has been a signatory to the Working Parent Charter since 2011, and it was during an internal brainstorming session that the idea of the **Babymoov Creche** came about. How could we provide genuine work-life balance for our employees, whilst remaining as close as possible to babies, their parents and early childhood professionals? Opened in 2013, the Babymoov creche can accommodate more than 30 children between 0 and 3 years of age, enabling them to develop in a calm atmosphere.
